Karen Knutson was here to give an update on the Oneida County Mental Health Coalition. They are planning a Mental Health Summit next year, they will call the summit the Frank B Kohler Summit and it will be held at the Waters in Minocqua again. They are looking for a well known national speaker for the conference. On Friday, April 19th they conducted a “train-the-trainer” on QPR (Question, Persuade & Respond) for Suicide prevention, 20 people attended this day long event held in the Public Health conference room. Sue Hampton stated that she attended the QPR training last March and that grade 6-12 school is required to present to all counselors & faculty. The DPI (Department of Public Instruction), has data; youth behavior @ risk survey. More military are dying from suicide than are dying in combat. There are 4 basic mental health questions. Anti stigma posters are up around the school. April was mental health awareness month.</p> <p>5.) Parents who host lose the most –can go online for info. It was suggested that we add the alcohol and the adolescent flyer developed by Katie Leone during her internship at the health department to the letter that goes to all graduating seniors. It was mentioned that the letter was taken wrong by some parents in the past because it was addressed to graduating seniors and their child was not going to graduate. This problem with the past letter has been resolved.</p> <p>6.) Anne C wrote an Alcohol Awareness Blog and posted it on the OCHD website and shared it with UW-Extension.</p>
<p><u>New Business:</u></p>	<p>1.) Parents Who Host and Post Prom</p>	<p>1.) Dawn will find the flyer developed by Katie Leone on alcohol and the adolescent and the effects of alcohol on the teen brain and send it out to the AODA members to add to the letter that goes out to seniors. Dawn will contact Vilas County Health Dept. to see if they are doing anything regarding alcohol at prom and graduation parties and forward their response to AODA Coalition members.</p>
