What If I Need Treatment for Breast or Cervical Cancer?

You may be eligible for Well Woman Medicaid to help pay your medical bills if you were screened through the Well Woman Program, were diagnosed with breast or cervical cancer, do not have any health insurance, and meet the eligibility requirements. Your local Well Woman coordinator can help you apply.

What About Other Health Problems?

The Well Woman Program pays for ONLY limited breast and cervical cancer diagnostic procedures.

- Well Woman does not pay for the diagnosis and treatment of conditions other than breast or cervical cancer, even if those conditions were found during your well woman health checkup.

Well Woman does not pay for treatment of conditions that were diagnosed before you were enrolled in the program.

Continuing Eligibility

You are enrolled in the Wisconsin Well Woman Program for up to one year. You will be eligible to re-enroll annually if you are age, income and insurance are still within the Well Woman Program limits. Your local coordinator will contact you to re-enroll. Please note: You must meet all requirements and complete a re-enrollment form to continue to receive Well Woman services. You WILL NOT be automatically re-enrolled. Contact your coordinator if you have questions about your continuing eligibility.

2014-2015 Income Guidelines

Wisconsin Well Woman Program

Oneida County Health Department
Tel: 715-369-6111
Fax: 715-369-6112
The Wisconsin Well Women Program is a preventative health cancer screening program. The program pays for a preventative health check up, which may include:

- A **health history** related to breast and cervical cancer
- A **breast exam** to check for lumps or changes in the breast
- An age appropriate **mammogram** (breast x-ray). A screening mammogram if you are between the ages of 50-64, a screening mammogram every one to two years if you are 45-49 years old and your health care provider says you are at high risk for breast cancer.
- A **pelvic exam and a Pap test** to check for changes or signs of cancer in the cervix. Your health care provider will recommend how often you should have these procedures based on your personal health history, usually every one, three or five years. If you have had a hysterectomy, your provider will tell you whether or not you need a Pap test.
- **Follow-up tests** to diagnose breast or cervical cancer. Well Woman pays for many but not all follow-up tests to diagnose breast or cervical cancer if you have had an abnormal screening result. Your health care provider can discuss these tests with you as needed.

**Are you Eligible for Program?**

- Women between the ages of 45 –64
- No health insurance or your health insurance does not cover these checkups or you are unable to pay deductibles or co-payments.
- Income meets guidelines.

**Confidentiality**

When you sign the form to enroll in the Wisconsin Well Women Program, you gave permission to have your personally identifiable information released ONLY to the local Well Woman coordinating agency, your health care providers and the State of Wisconsin. This is to make sure that you receive proper medical follow-up and to keep track of your enrollment status. Your personally identifiable information cannot be made public or released to anyone except these agencies.

Oneida County is HIPPA compliant. A copy of the privacy practices regarding health information is given to each enrollee at the time of enrollment.

**Will I Get a Bill from My Doctor?**

You should not receive bills for services covered by the Well Woman Program.

- Your Well Woman provider has agreed to be paid a certain amount for each service covered by the Well Woman Program.
- If you have insurance, your health care provider will first file insurance claims for the visit. Your insurance may cover all, part, or none of the bill. The Well Woman Program will pay for the balance of the Well Woman covered service that your insurance does not pay, up to the maximum rate for that service. Your provider cannot bill you an additional amount for a service covered by Well Woman.
- If you receive a bill for services, contact your local Well Woman Program coordinator. The coordinator will work with you and your provider to resolve any bills.

You are responsible for any service not covered by the Well Woman Program or by any insurance. Always ask your health care provider or coordinator whether the program will pay for the tests and exams that are provided and recommended.

**How Do I Get Enrolled?**

Call the Oneida County Health Department to see if you are eligible for the program. Each year you must re-enroll in the program. Once you are enrolled in the program, your coordinator may make an appointment for you or may ask you to schedule your own appointment. It is **VERY IMPORTANT** that you contact your Well Woman coordinator prior to your appointment so that they can ensure that the appropriate paperwork is given to your provider. Make sure to tell your provider that you are enrolled in the Wisconsin Well Woman Program and present your card.
